**Weekly Schedule: #1**

March 2, 1990

**Phase II, Remedial Investigation ACS NPL Site**

---

FAX TO: Robert Swale, U.S. EPA [312/886-4071]  
Andrew Porellis, PRPs [312/937-6605]  
John Murphy, ACS [219/924-5298]  
Paul Courtney, IDEM [317/243-5092]

FROM: Peter Vagt, Ph.D.  
Warzyn Engineering

**WEEK: March 3 - March 9, 1990**

Phase 2 of the ACS NPL Site Remedial Investigation will be mobilized on Monday March 5, 1990. The planned schedule for each day of next week is listed below; we will keep you informed of any changes as we become aware of them.

<u>Day</u>	<u>Date</u>	<u>Activity</u>
Monday	March 5	Mobilization to the ACS Site in Griffith. Drilling rig and crew are expected to arrive by the end of the day. Field crew will spend day loading equipment, setting up inventory at the trailer, and performing site reconnaissance.
Tuesday	March 6	Re-establish decontamination pad. Decontaminate drill rig and other equipment. Begin the first of four lower aquifer monitoring wells. Step one for three locations is to install 6-inch steel casing to clay confining layer.
Wednesday	March 7	Continue installation of steel casings at lower aquifer well locations.
Thursday	March 8	Continue installation of steel casings at lower aquifer well locations.
Friday	March 9	Continue installation of steel casings at lower aquifer well locations.

**Projected Tasks for the Week of March 10-16, 1990:**

After steel casings have been set for the three initial lower aquifer monitoring wells, monitoring well installation will continue through the casing at each location.
